Note!

If any of the files are missing, please contact Bankgirot. Note that you can specify the type of files to display in the **File > Profiles > Preferences dialog**.

- Select the files you want to download and click Fetch. The files that have been downloaded are marked Fetched in the Status column, see the figure above.
- The status bar keeps you informed of the status of your file transfer. When you have downloaded all the files you need, click **Close**. The downloaded files will be available in the **Fetched** directory in the main window.
