Event log

Anna-Karin Ettik Åsén - 2024-01-16 - Comments (0) - Information for new users

To view the event log, click **Tools** in the main menu and select **Show Transactions**.

The transaction log always shows the following events:

- Add a file to the file list.
- Remove a file from the file list.
- Sign a file in the file list.
- Send a file.
- Download a file.

If you want to see a specific section of the transaction log, enter a **from date** and a **to date** in the mentioned fields as shown in the figure above.
