Connection to Bankgirot

Anna-Karin Ettik Åsén - 2024-01-17 - Comments (0) - Information for new users

To connect to Bankgirot:

1. Select **File** in the main menu and then select **Connect to Bankgirot**. Bank-ID is started.

1. Select the e-Legitimation you will use to identify yourself.

2. Enter the PIN code for authentication and click **OK**.

The status of the connection is shown at the bottom of the main window (Status line).

*** Warning**

If you enter the wrong PIN code three times in a row, your e-Legitimation will be locked. You must then unlock it using a PUK code which you can find at the bottom of the paper where you have your PIN code. It may be good to contact your supplier of the E-Legitimation (eg Posten or Telia) to get the exact description of how to unlock your e-Legitimation. You can read more information on the document containing your PUK code.

You can also follow this example if the PIN code is locked:
