Soon (17 March 2025) support for TLS 1.0 will be removed from Bankgirot, download new Netmaker BankGiro Link that support TLS 1.2

It is important to have the latest versions of the Netmaker BankGiro Link software, so don't forget to update yourself!

Download here: Downloads

The installation is done as below:

Download the file from the Help Center.

1. Uninstall older version of Netmaker.
2. First, install the C++ Runtime by running VC_redist.x64.exe.
3. Install Netmaker BgLink run Netmaker BgLink Setup x64.msi

The files install in the following folder:

C:\Program\Formpipe\Netmaker BgLink (Swedish edition of OS).

C:\Program Files\Formpipe\Netmaker BgLink (English edition of OS).

Bank-ID program on computer can be updated here: BankID application
