Summer Vacation!

2025-05-14 - Anna-Karin Ettik Åsén - Comments (0) - Information from Support

During V.29 - 31 there may be slightly longer response times than usual at Support due to holiday times.

We want to highlight this in time and take the opportunity to advise that you can find a lot of help/support here in the help center by using the search function at the top (the search box with a magnifying glass),

as well as the menu options under e.g. "Knowledge base - Troubleshooting" if it concerns error codes or similar, or "Frequently asked questions and answers" for more management-related questions.

Thank you for your patience!

Have a nice Summer!
